Options

P25 Trunking (KZA0579)

The KNG 9600 baud trunking option gives you the ability to communicate without hassle and without complication. Compatible with competitor trunking systems, BK Technologies® trunking is P25 compliant and loaded with features, such as encryption and many unit-to-unit specializations. Best of all, you get ease of use. Using our intuitive software, modifying your KNG trunking features will be simple.

OTAR (KZA0580)

Over-the-air re-keying is an easy solution to efficiently change encryption keys. Completed almost effortlessly, encryption keys are changed over the air with the touch of a button.

Multicast Vote Scan (KZA0581)

Multicast Vote Scan capable KNG Series radios automatically select the best site to operate from in a wide area system. Channels in the multicast conventional system are added to the scan list and designated as “voted” channels. The KNG radio scans all voted channels and selects the channel with the best signal.

AES/DES Encryption (KZA0577)

AES and DES (Digital Encryption Standard) allows you to communicate with other radios that have the specific key programmed.

GPS (KAA0589)

Know where you are at any given moment with the BK Technologies® GPS Option. Longitude and latitude coordinates will give your exact location anywhere in the world, saving valuable time when calling for backup in emergency situations.

A photograph of three firefighters in full protective gear running away from the camera down a wet city street at night. The wet pavement reflects the bright orange and yellow lights of a fire or emergency scene in the distance. The background is dark and hazy, emphasizing the firefighters' movement.
